Yes, I knew that about Tala so let's hope many of them are helpful but do not require much addition to the paper – i.e. they just confirm what you wrote.

Don't panic on SAICM yet. I'll get it under control. I have a lot to share with you on events that happened while you were gone, etc.

Thank you!

Ok, I will put some more effort into this on Monday morning. I am working on the deca paper now, looking closely at the Japanese notification and documentation.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Tala has reviewed the Dechlorane Plus proposal and said she will send me her final comments today. I will need to spend some time interpreting her comments to figure out which to highlight in the position paper and what they mean for our position on whether the criteria are met.

I'm really hoping everyone can share the work for SAICM, or else I will have a panic attack! 😊

Laura,

I know this one took you a lot of time, but it really shows and it's a great paper. I think you have really served Monique and the U.S. delegation well with this one.

Ex. 5 Deliberative Process (DP)

...s, so can this be one where you look at it earlier on Monday so we can discuss?

Thanks,
Karissa

Subject: Two more papers for POPs

Hi again,

Attached are papers on PFHxS and Dechlorane Plus, as well as U.S. comments on the PFHxS RME. I have a few questions highlighted in the PFHxS paper; Toni should be able to address two of them and the third is for OGC. For Dechlorane Plus

--

I have run out of time here, so I will need to finish the PIC deca paper tonight or tomorrow. Fortunately Monique already reviewed the notifications.

Laura
